

SUBMIT A REPORT

Enter the Incident information in the form below. The information will be used to generate a report in the VIN program. If a VIN has been included in the incident information, the VIN program will email the report to the company with the registered VIN. If no VIN information is provided, the vehicle description and other details provided will be used to determine the Registered Owner of the vehicle. The BC Forest Safety Council will review all incident reports for opportunities to improve Road Safety and reduce injuries and fatalities.
